

PRESS RELEASE

NEW WEBSITE FOR PHLEXGLOBAL

1 June 2009. Phlexglobal, the specialist Clinical Research Organisation (CRO), has relaunched its website – www.phlexglobal.com – making it a comprehensive tool for industry professionals seeking flexible support solutions for all aspects of the clinical trial process.

In response to user feedback, the website has been redesigned with a fresh new look to allow easy navigation. With clear information on all Phlexglobal's services, a number of new features have been added including an interactive search tool for current job vacancies and a comprehensive list of training courses.

Nicola Murgatroyd, Phlexglobal's founder and chief executive officer, is delighted with the new website. She said: "We wanted to create a website that more accurately reflects the fact that Phlexglobal is more than a resourcing or archiving company. The clear design and layout provides an excellent overview of the broad range of services Phlexglobal can provide.

"The addition of an interactive job vacancy function will be of huge benefit to our candidates and clients, enabling us to match talented professionals with the right clinical research role more efficiently and effectively."

Based in Amersham, Buckinghamshire, Phlexglobal specialises in flexible staff resourcing, eTMFs, scanning, clinical trial management and support, archiving and training. With 16 of the top 20 global pharmaceutical companies as clients it is committed to achieving high levels of client satisfaction.

For further information about Phlexglobal's services log on to the new website at www.phlexglobal.com.
